July 2019 | Construction Notice No. 1

The City of Hoyt Lakes will be starting construction on the 2019 Yard Drainage Improvements project this summer. The project will include surface grading of several properties and installation of a subgrade drainage system ("French Drain") between several other properties. There will also be several pavement patches completed on various streets in conjunction with the drainage work.

The project team consists of the City of Hoyt Lakes, SEH, and Mesabi Bituminous Inc. Along with Hoyt Lakes Public Works Director, Floyd Nelson, SEH will serve as the City of Hoyt Lakes' representatives on this project.

## Project Schedule

Construction is anticipated to begin in mid to late August. Working hours will typically be from 7:00 a.m. to 7:00 p.m. Monday through Friday. These hours/days may vary as the project progresses.

In preparation for the construction, the City requests that all private obstructions be removed from the construction areas for the following addresses: 208–212 Andover (Even only), 205–211 Arlington (Odd only), 410 Coventry, 404–422 Kent (Even only), 401–421 Leeds (Odd only).

Maps of the work areas are available to view at City Hall.

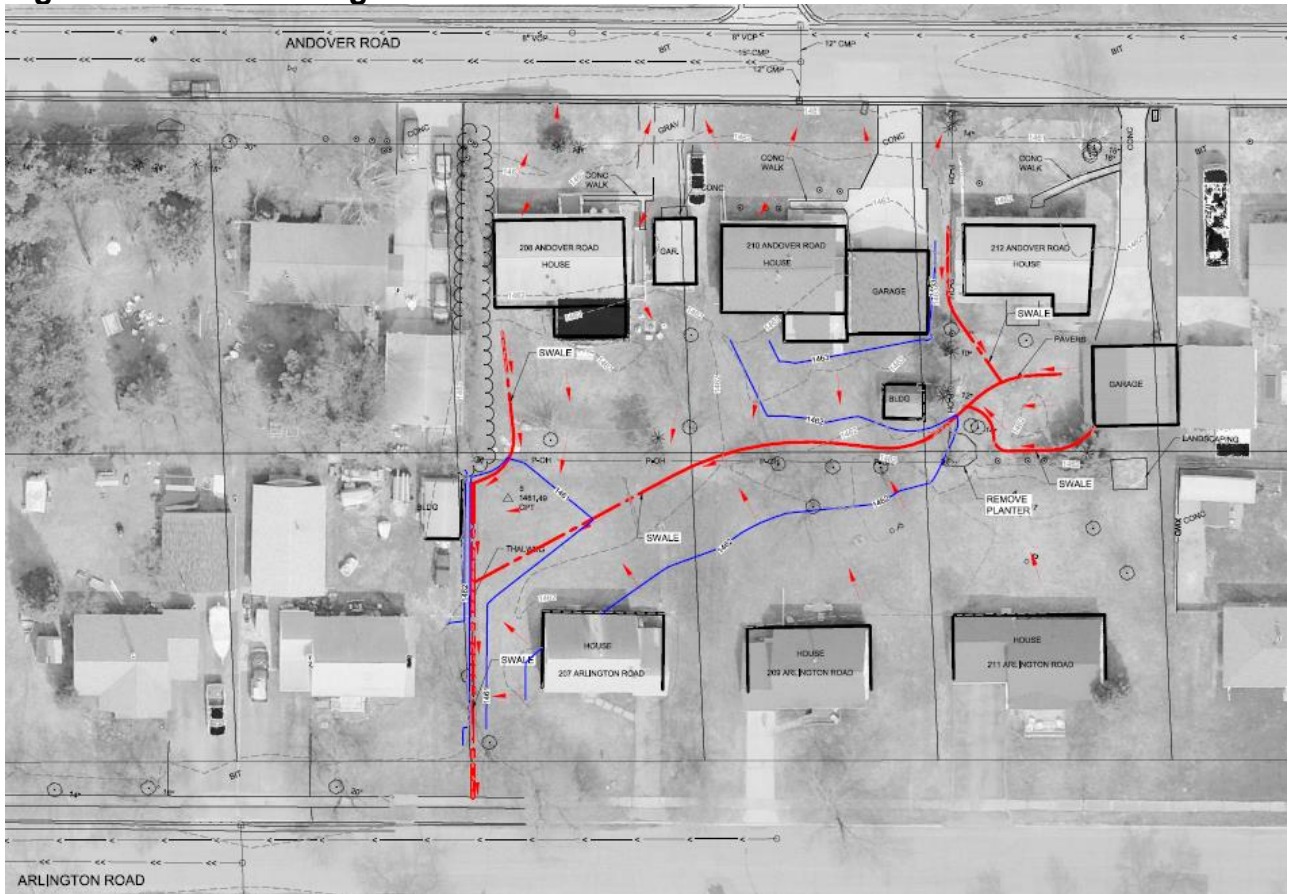

For more specific information, please contact Floyd Nelson.

## Contractor Information

In the event that you may need to contact the Contractor on the project, their contact information is as follows:

Mesabi Bituminous Inc.  
Matt Jamnick  
Office: 218.741.9002  
Mobile: 218.780.6043  
Email: [mesabituminous@accessmn.com](mailto:mesabituminous@accessmn.com)
