

7.4 Glare

Any lighting used to illuminate an off-street parking area, sign or other structure, shall be arranged as to deflect light away from any adjoining residential zone or from the public streets. Direct or sky-reflected glare, where from floodlights or from high-temperature processes such as combustion or welding shall not be directed into any adjoining property. The source of lights shall be hooded or controlled. Bare incandescent light bulbs shall not be permitted in view of adjacent property or public right-of-way. Any light or combination of lights which cast light on a public street shall not exceed one (1) foot candle (meter reading) as measured from the center line of said street. Any light or combination of lights which cast light on residential property shall not exceed 0.4 foot-candles (meter reading) as measured from said property.
